REMARKS

This amendment is submitted to conform the specification and the claims to the requirements of 37 C.F.R. § §1.821-1.825, as noted in section 10 of the Notice To File Missing Parts Of Application and section 3 of the Notice To Comply.

In response to section 3 of the Notice To Comply, applicants submit herewith the Sequence Listing on the enclosed computer diskette, which is identical to the paper copy attached as Exhibit A in compliance with the requirements of §1.821(e).

Also in response to section 3 of the Notice To Comply, applicants submit herewith a Sequence Listing attached hereto as Exhibit A in compliance with the requirements of §1.821(e).

In response to the third item of the Notice To Comply which applicant must provide, applicants submit as Exhibit B, a Statement In Accordance With 37 C.F.R. §1.821(f) certifying that the computer readable form containing the nucleic acid and/or amino acid sequences required by 37 C.F.R. §1.821(f) and submitted in connection with the above-identified application, has the same information which is submitted in this amendment to the subject application under the section entitled "Sequence Listing".

The Sequence Listing complies with the requirements of 37 C.F.R. §1.821 and does not contain any new matter. Moreover, the changes to the specification are merely to add the particular sequence identification numbers and to renumber the pages for the new Sequence Listing. Accordingly, these changes do not include any new matter of the type prohibited by 37 C.F.R. §1.118. Therefore, applicants respectfully request entry of these changes.
